

1. We usually **add –er and –est** to one-syllable words: to make comparatives and superlatives: old, older, oldest, big, bigger, biggest, happy, happier, happiest...
2. We use **more and most**: to make comparatives and superlatives for most two syllable adjectives and for all adjectives with three or more syllables: more interesting, the most interesting, more modern, the most modern...
3. Making Comparisons with **As + Adjective + As**: When we compare equal qualities of two people, places or things, we use the comparative structure as + adjective + as. I have got two dogs and I like them both. Benji is as playful as Cody. In unequal “as” comparisons about the qualities of people, places or things, we use the word “not.” Benji is **not as** playful **as** Cody.
4. **Irregular**: good, better, the best (najbolja), bad, worse, the worst (najgora), far, further, furthest (najudaljeniji), little, less, the least (najmanje)
